Total Super Strip HD

Heavy Duty, Professional Grade Stripper

750-1G, 750-5G

DESCRIPTION:

ICT Total Super Strip HD is an environmentally friendly, next-generation, heavy duty, bio-based stripper designed to remove chemical resistant, urethane, epoxy, and solvent based sealers, as well as oil, latex, and acrylic paints. **Total Super Strip HD** does not contain methylene chloride, MEK, or any other harsh flammable chemicals., therefore making it more environmentally & user friendly than strippers historically used for the same purpose(s).

FEATURES & BENEFITS:

- Non Flammable
- Commercial Strength
- Non MEK
- Vertical application
- No Neutralizing
- Diversity
- VOC Compliant
- Horizontal application

APPLICATION:

Apply **ICT Total Super Strip HD** with a sprayer, squeegee, or roller. Apply a generous coat over entire area to be removed. Allow **ICT Total Super Strip HD** to remain on surface for 10—30 minutes. Application time, or “dwell time”, may vary depending on age of coating, thickness, and temperature. Scrub, wipe, and rinse as necessary. *Note: some surfaces may require **ICT Total Super Strip HD** to remain on surface for additional time or additional applications.* Typical coverage is approximately 200—250 sq. ft. per gallon. Once coating is removed be sure to clean the area of all residues by scrubbing, rinsing, pressure washing, etc. Apply test area before re-coating. Properly dispose of all towels, rags, etc.
